A Winter's Trapping

MY FIRST SILVER FOX

By G.E. MASLES (Little Clerk).

(Copyrighted)

Wintering at Sturgeon River, a small outpost of the Hudson's Bay Co. in the Cumberland district, in 1778, time often hung heavy on my hands when my two men were away on trips to the Indian camps, there being no resident Indians close at hand. So after overhauling five nets (which was a daily task all winter), the proceeds of which constituted our principal food both for men and dogs, there was literally nothing to do, and this was killing to one of my active temperament.

On the men's return I tickled Francois for some instructions as to setting of traps, for up to this time, though I had been six years in the service, I had been kept so busy that the opportunity for trapping never occurred, consequently I was quite green about the matter. Francois was very good and patient with his pupil, telling me to bait my traps with green spruce brush, then hang them out in the frost, and in setting a fox trap to keep along a beaten track if possible, reach forward and make a hole in the snow, place some down (off bushes preferably) in this, then carefully place the trap in, which was a thin piece of paper cut inside the jaws, faster the chain firmly to a supple green willow five or six feet long, cover this under and under the surface, scatter broken fish, like bread crumbs, for several feet round and then the willow only needs to be set in place. I followed instructions very carefully and noted some fresh fox tracks in the vicinity, these, particularly, snow trails well shaped, so with a prayer for good luck I felt two traps, one being quite close to our fishing place. The second was a little further away, but I was sure it was a fox. I followed the tracks, and after I had set my traps. Then came my turn to go on a trip to the Indian camps, nearest of which was some thirty miles away, so it was some seven or eight days before I had an opportunity of visiting them.

On my return I found that my two small log buildings, one opening into the other with big open end chimneys in each, for this was before the days of cooking stoves. My residence was the inner cabin. Passing through the men's quarters with my capot and leggings on I was off for my first visit to the traps, remarking, "Well, look out for a silver fox on my return." The first thing I noticed, for some reason, was that the first catches of a green trapper. On reaching my first set, both trap and stick had gone and I was circling the spot and trying to find a trail, a little further away, I found faint traces of where something had dragged and these I followed like a cat. A keen scent led me to the edge of the river where rather steep steps in places and several times where Mr. Fox had tried to get up into the snow he fell back on to it but at last came a more sloping bank and the track was fresher going up and over. Not ten yards away was a beautiful animal, black as a coal not long though, for there was a patch of fair hairs on his rump. I stared at him with amazement, and finally said that it was a genuine silver fox and no other. In the meantime it was hissing and spitting at me like a cat. I did not want to touch it, but I was so close that I was obliged to touch it (very tender). After catching a minute I took off my capot, there it was on the poor fox and snatched him to death.

This without any blood to run the risk of. I could hardly credit my good fortune, my first attempt at trapping of any kind, and there was a prize that many trappers had never caught. Getting near the post I concealed the fox as well as possible under my coat, and walking in the cabin threw the beautiful animal down on the floor, remarking, "Did I not tell you that I was going to bring a silver fox back?" Speechless with amazement the two French half-breeds and their young wives clapped their hands on their mouths (a native habit when astonished) and ejaculated, "Wah, Wah!"

The news went far and wide that Ogemas had killed a silver fox. This was rather to my disgust as I was anxious to send the skin home to my relatives, but alas, on my next trip to headquarters the first question put by the Chief Factor was "Where is the silver fox?" and why didn't I had to surrender same at the going trade price of forty skins, which was established at \$340.00, the selling part and parcel of every creek and servant's contract with the Hudson's Bay Company, viz. That all furs caught by them be handed over at post prices to the company.

With such good luck in starting trapping I was now on fire for more. I had just established an old Indian at one of the mountain camps that he gave me a small bladder of secret, so strong that if the stopper was taken care of the liquid would not leak out in the room. This was a very special secret. Also the old chap instructed me in the method of setting particular traps, all of which I felt very grateful for and rewarded him accordingly.

I had now purchased thirteen steel traps, all I had in store, and noting some marten tracks on the mountain side, decided to try my hand. These are simply caught by building a little enclosure, setting the trap at the door, with bait inside, and a little stick fixed in the bottom, one could not get in the room. This was a very special secret. Also the old chap instructed me in the method of setting particular traps, all of which I felt very grateful for and rewarded him accordingly.

Juvenile Crime on Increase

In 1919 Some 3,667 Children Under 16 Years Convicted of Offences.

Ottawa.—During the past twenty years in Canada boy criminals have increased by almost 300 per cent. This is shown in an analysis of the criminal statistics issued by the bureau of statistics.

The analysis does not go beyond the year of 1919, but shows that during the three years, 1917-19, more than 20 per cent of the indictable crimes were committed by juveniles. In the years 1915-16, the records show that for the period 1884-91, the average was 13.64 per cent, and in 1892 it was 16.38 per cent.

In 1919, there were 3,667 children under 16 years of age convicted for

indictable offenses, of their number 3,728 were boys. There were 631 boys convicted for burglary, house and shopbreaking.

Would Discuss Peace

Turks Ready to Accept Mediation of Some Neutral Power.

Constantinople.—The Turkish National Assembly is preparing to negotiate with a settlement with the Allies, according to an Ankara dispatch, quoting Haussmann Bey, commissary general for foreign affairs in the Cabinet of Mustafa Kemal Pasha.

"We are ready to accept the good offices of some neutral power to adjust the peace," the Allies' commissary is quoted as declaring. "The negotiations can begin as soon as an offer is made."

Chairman of Wheat Board

Expect Brisk Building Period

Great Activity in Construction of History of Country is Predicted.

Winnipeg.—A proposal that the Federal Government should be urged to float a \$250,000,000 housing loan by the sale of Government bonds was considered at the convention of the Association of Canadian Building and Construction Industries here.

Another of many important matters receiving attention is the proposed establishment of an apprenticeship system in the building trades throughout the Dominion. Both questions were favorably reported upon by the National joint conference board, formed as a result of discussions with representatives and labor men, and committees were appointed to bring in definite resolutions regarding them.

W. H. Carter, ex-president of the Board of Trade, said one of the most vital problems before the country was the high cost of building. He believed that the cost of building materials would have to be reduced along the lines of other commodities before there was a very large amount of building done.

Frederick P. Angus stated that comparatively little construction work had been done in Canada since the war started and expressed his belief that the greatest building period in the history of the country was about to be entered upon. Whether it was realized or not, the very welfare of the country depended more on a revival of building activity than on any other single factor.

James Stewart, of Winnipeg, recently appointed, together with P. W. Riddell, to make a report on the practicability of a Saskatchewan Wheat Pool.

Praise For Durum Wheat

Kernel Makes Durable Bread But Popularity Will Result From Education.

Winnipeg.—The production of durum wheat, because of its most resistant qualities and high yield, in the northwestern states, was advocated here by Dr. L. H. Walster, of North Dakota, in an address before the wheat problem in the United States, at the convention of Manitoba agricultural societies or farm congress.

"Canada has an old hard wheat, but the decision on the use of durum varieties," Dr. Walster declared. "For Dakota and Minnesota I would favor a hard red spring wheat if one could be found to resist rust. Under present conditions durum is the best wheat we can raise and it is already finding a big market in the countries of Southern Europe," said Dr. Walster.

"American and English people object to the dark bread made from durum flour," he asserted, "but if the new process continues we may have to accept the durum varieties for general production."

Dr. Walster stated that objections to durum are largely those of prejudice and custom, and only require education to overcome them.

Would Reduce Naval Program

Senator Borah's Resolution on Armament Pairing Approved by Senate.

Washington.—Senator Borah's resolution proposing negotiations for reduction of naval building by the United States, Great Britain and Japan was reported upon favorably in the Senate Foreign Relations Committee.

Some changes were made by the committee in the Borah resolution. One was the inclusion of provisions that any agreements between the United States, Great Britain and Japan for naval building reductions should be promulgated formally by treaty.

Comment of the negotiations to three principal naval powers, so originally proposed by Senator Borah, was approved.

To Help Farmers

Banks to Advance Half Million to Farmers in Need.

Winnipeg.—The Tribune carries the following from its Ottawa correspondent: "Almost \$500,000 will be advanced by the banks at the instance of the Government to needy farmers of the country who lost their crops. This will enable them to buy seed grain. The loans are to be made only to home-steaders actually farming their land, and to be on the security of notes. In the event of defaulting the Government will make good."

Experimental Stations. Winnipeg.—Experimental stations on the prairie where eradication of snout in wheat can be studied, were advocated by President John Brackner, of the Manitoba Agricultural College, before the delegates to the Canadian Seed Growers' Association in convention here.

Increased Value of Seed Wheat. Fargo, N.D.—Canadian farmers have increased the value of their seed wheat four bushels an acre by proper organization for improving the seed, Professor T. J. Harrison, of the Manitoba Agricultural College, said in addressing a session of the tri-state grain growers' convention.

Wireless Record Made. Hartford, Conn.—A new civilian wireless record was established when Harry Reid, Maine, sent a message from his station here to Los Angeles, Cal., and received a reply six and one-half minutes later. The messages were sent by stations at Chicago and Roswell, N.M.

Want Better News Facilities. London.—A large delegation representing the Empire press waited on the Postmaster-General and urged the desirability of improved facilities for cable and telegraphic news.

Edmonton.—Endorsement of the wheat pool proposition and a mandate to the farm organizations to go ahead with the work of preparing the way to the final establishment of the pool, in co-operation with the other provincial farmers' organizations, was contained in a resolution passed by the annual convention here. Only five out of 1,461 registered delegates voted against.

J. R. Murray, assistant general manager of the United Grain Growers, explained the draft agreement and impressed on the convention the need for co-operation.

C. P. Murray, vice-president of the United Farmers of Manitoba, brought greetings from the Manitoba association and appealed for sympathy toward the non-English-speaking citizens, and asked that the farmers' organizations co-operate to make better citizens of these people. The latter movement, he continued, is essentially these people and should take any interest in changing the environments of the farm.

The committee appointed to draft a resolution on the proposed wheat pool, reported. The resolution expressed dissatisfaction of the U.F.A. with the present method of marketing wheat; confidence in the ability of the farmer organization to carry out the wheat pool proposal; appreciation of the efforts of the Canadian Council of Agriculture, and urged the exchange of information among the grain growers.

The recommendation is: "That our representatives, in connection with the representatives of the other provincial organizations affiliated through the Canadian Council of Agriculture, should press forward with the establishment of a co-operative scheme for the marketing of the wheat crop of the Dominion."

Possibilities of Western Fruit

Believes That Fruit Can Be Successfully Grown on Prairies.

Winnipeg.—Fruit growers in Manitoba has great possibilities it was stated by Ernest Hayter, superintendent of the demonstration farm at Kilparney, addressing the convention of the Manitoba Horticultural and Forestry Association. He urged that the thousands of dollars sent to Cape Cod for cranberries every year.

Congratulations.—An attempt was made recently to assassinate Nikolai Stenbo, Bolshevik premier of Russia, it is said, according to the newspaper "Izvestia" of Moscow to attend the eighth Soviet congress when a bomb was thrown at his machine, killing eight persons and wounding 20 others. The man who threw the bomb escaped arrest, it is said.

FIREGUARD NEWS

The annual meeting of the Fireguard School District was held at the schoolhouse on Saturday, January 22nd. A large number of ratepayers were present. Fred Blackley and J. Burnet were elected for trustees.

J. O. Reid was in our neighborhood last week and purchased a carload of cattle and a number of hogs from McDonald and McDonald.

W. Creme is contemplating a trip to Calgary in the near future.

Matrimonial affairs calling his attention in that direction.

Mr. McDonald our school teacher spent the week end at Vulcan and reports a very pleasant time.

Mr. and Mrs. McNulty, of Vancouver are guests at their aunt, Mrs. Jas. Burnett.

Mrs. Collins and Hazel Cole spent the week end with their parents.

Golden Rule W. L. met at the home of Mrs. Pollar Thursday last.

One of our local big game hunters having made two trips to the mountains this fall with rather poor success is now taking revenge on the jack rabbits, having shot six in fifteen minutes.

W. C. Fry and family were guests of A. Seigel.

Judicial Notice

To: Mabel Keil formerly of Champion Alberta.

TAKE NOTICE that an action Number 17083 has been commenced against you in the Supreme Court of Alberta, Judicial District of Calgary by your husband, Joseph Keil of Champion, for dissolution of the marriage heretofore existing between you and the said Joseph Keil on the ground of adultery.

AND FURTHER TAKE NOTICE that you may deliver (a) a statement of Defence or (b) a demand that notice of any application in the action be given to you on or before Friday the 25th day of February 1921 and in default of your so doing the Plaintiff may obtain judgment for dissolution of the said marriage without further notice to you.

DATED at Calgary, Alberta, this 12th day of January 1921.

A. G. A. CLOWES.

Clerk in Chambers.

EDITOR'S NOTE

The news matter prepared for this issue is largely carried over to next week, the same being obvious.

U. F. A. Local Will Entertain

The directors of the local U. F. A. held a meeting on Tuesday January 25th and to improve the financial position of the local, decided to hold an entertainment and dance on Friday, February 18th, in Mers's Hall, Champion.

As part of the entertainment they hope to secure a speaker to give a short talk on the U. F. A. political association.

CHURCH BULLETIN

The Sunday school continues to grow in interest and if you haven't been yet, try to be present on Sunday morning. Mr. Manhard and the teachers will be pleased to see you.

The evening service will be held in the Sanderson schoolhouse on Sunday at 2.30. Don't forget the choir practice on Wednesday evening at 8 p. m.

A special meeting of the boys and girls 12 years of age and under will be held in the church on Friday afternoon at four o'clock.

The lantern entertainment promises to be of unusual interest on Friday evening when three of our Trial Rangers, Merrill Palmer, Jack Taylor, and James Wright will provide the programme, so don't you fail to be present.

Slides dealing with Japan and its people will be shown and for those who can be present a great treat is in store.

The entertainment will commence promptly at eight o'clock and be over in time for all those who purpose attending the Institute "Old Time Concert." So don't forget there are two "big times" waiting for you on Friday evening.

A lantern entertainment and concert will be given in the Blusson schoolhouse on Saturday evening at eight o'clock. Slides dealing with the Southern States and Japan will be shown and a very enjoyable evening is expected.

The ladies will meet at the home of Mrs. J. M. Moffatt on Thursday Feb. 2nd. Visitors always welcome.

A class of beginners in Grade 1 will commence attending the primary room of Champion Consolidated school on Tuesday, February 1st, and parents of children of the full age of six years are requested to have these pupils commence school on the above date. Beginners' classes commence each year on February and September.

Miss Nickawa Coming

On Wednesday evening, Feb. 9th, Champion is to be favored with a visit from Miss Francis Nickawa who comes to our town very highly recommended, having crowded with appreciative audiences some of the largest halls and churches in western Canada.

Miss Nickawa will be assisted by local musical talent and the entertainment will be held in Campbell's Hall.

This will be such an unusual treat and it is hoped that a large number of our community will make an effort to be present. The price of admission will be adults 75c and children 35c.

Miss Nickawa is being brought by the local Sunday school which is a community organization, therefore by supporting this entertainment you will be supporting your own boys and girls.

The Golden Rule Women's Institute propose holding a Bean Supper on February 4th, followed by a dance later in evening, the supper to be served from 6 to 8 o'clock. The Alston schoolhouse will be utilized for the occasion and a cordial invitation is extended to everyone to attend with the assurance that a splendid evening is assured. Be careful not to miss this event.

Mrs. W. A. Matlock returned from Calgary this week after undergoing a successful operation at Calgary, and is making rapid progress towards complete recovery.

Ewald Matlock, who was operated upon recently for appendicitis at Calgary, is still in a serious condition, but hopes are entertained of his ultimate recovery.

CHANGE IN TRUSTEES' CONVENTION DATE.

The attention of school trustees is drawn to the fact that the date of the convention has been changed to Feb. 2nd and 3rd.

PROGRAM

THURSDAY, Jan. 27, 1920.

**Big Time At
Alston School**

Miss Vesper Maynard entertained very successfully at a dance combined with a picnic and shadow social last Friday night Jan. 21st at the Alston school. Everybody enjoyed themselves to their fill, specially those who were lucky enough to buy a shadow for with it went a very delicious and tasty pie. An odd one was disappointed as the reflections on the curtain were deceiving and some of the boys got the wrong shadow. Nevertheless the boys showed themselves good sports for the social netted the neat little sum of sixty-five dollars which was by the kindness of Miss Maynard after accounting for her own expenses donated to the Alston U.F.A. baseball team. A good place to come when you want to enjoy a scintillating time is always and has been for a long time the Alston school.

**Golden Rule W. I.
Holds Meeting**

The G. R. I. met with Mrs. McIntyre Thursday, Jan. 20th. One of the best business meetings we have had ended with a paper by Mrs. J. Archibald on "Canadian Authors," which was very much appreciated. Plans were made for holding a bean supper to be served on February 14th, cafeteria style to which everyone is cordially invited. Supper to be served from 6 to 8. The remainder of the evening will be spent in dancing.

**Watch Out For
The Weed Train**

The Interprovincial Weed Train is scheduled to be in Champion at 2:30 p. m. on Friday, March 1th. Every farmer in the district should make it a point to be on hand for this event as the weeds problem is one of the most serious matters confronting the farmer at the present time and expert advice in regard to eradication should be sufficiently valuable to induce general interest in the weed train.

Mrs. Geo. Alcock was the hostess at a house party on Wednesday January 19th.

Mr. and Mrs. George Wright are the proud parents of a 9 pound son, born on Friday last.

J. M. Moffatt, who was ill with tonsillitis all of last week but who was able to be around again, is again confined to the house.

Mr. and Mrs. A. C. McNulty, of Vancouver, who have been the guests of Mr. and Mrs. Jas. Brunet since Christmas, left for their home on Tuesday.

Ada Williamson's fifth birthday on Thursday, Jan. 20th, was celebrated by some fifteen of her friends at the family residence, a splendid time resulting.
